SOCIAL CREDIT IN NEW FORM IS PRESENTED

C. A. Sabiston, Writer, Lays Formula Before Ticker Club

TORONTO, April 3.—Social credit would utilize the capital value of all real wealth in the country as a basis for currency, C. A. Sabiston, writer on economics, told the Ticker Club here Tuesday. The club members were drawn from stock and bond trading houses.

The issue and control of credit would be assumed as a responsibility of government, while all industry and commerce would be operated privately on a complete profit basis, he said. The new money would be used primarily to finance consumption of production as at present; and to this end "social credit" would be issued by the people's controlling authority.

PERIODIC DIVIDEND

Too much harmony between the corporate and the individual, Sabiston said, would be the result of the "social credit" plan. He said that the plan would be to issue a periodic dividend to each of the "accumulated capital" of the country, and that this dividend would be based on the total wealth of the country.

Athletes of Nine Nations in Central American Annual Meet

ATS

by BILL LEWIS

Only last night, this query came over the telephone: "How old is Eddie Shore?" Well, the answer is as far as the record books show, is 31 years of age. . . . I couldn't swear that 31 is Shore's correct age, for few athletes ever admit exactly how old they are. . . . While delving into my record books that are to be found in the office of a sports editor, I came into a lot of information that is seldom brought to mind in the week-day routine. Yet most of it is highly interesting to anyone who follows sport closely.

Did you hockey fans know, for instance, that the ice game was introduced to San Francisco as early as 1915? . . . Until last night I thought it was new to the Golden Gate city until a half dozen years ago. . . . And did you know that Frank "King" Clancy of Toronto Maple Leafs, is the oldest player in the National Hockey League, in the point of continuous service.

Also did you know that Boston Bruins once signed a player to a tender from an American high school team? He was put on the dotted line in 1927 and his name was Maurice Roberts. . . . Yet you will notice that his name is still out in front of the Bruins' dressing room. . . . Would you like to know that Maurice Roberts would have looked around Fred Laytner or Don Stuart?

Speaking of stables, did you know that Roy Worters, of New York Americans, is the only player in the N.H.L. to win both the Dr. David A. Hart and the Georges Verina trophies? . . . The first named is the most valuable player award and the second the outstanding rookie trophy.

This is only a fragment of the wealth of hockey information contained in the National Hockey League Guide, an official publication of the major league of the sport. . . . But it goes to show how varied is the fund of facts contained in these useful "record books."

Tomorrow night Toronto Maple Leafs and Montreal Maroons take on the wraps and the game will be in the series that will decide the championship of the hockey world and the 1935 holders of the Stanley cup. . . . Personally, your agent is doing a lot of healthy pulling for Maroons to win out over the Leafs, particularly because of a slight wage, but mostly because of a sincere belief that a better hockey club is the one which is continually losing across the country as being presently unbalanced.

With Alex. Connell in goal, and Lionel Conacher, Cy Riel, Allan Shields and Evans on the defense, they appear to be the best fortified club in the league on the defensive end, while their forward line possesses all the power any manager could desire. . . . Well, see, however, when the series gets under way.

It's going to be a tough battle every minute. But we're not afraid of them.'"

"What'll Coach Corbush and Jackson? Any Northcott and Ward, of course. But it really doesn't matter. Why of our lines can cover the play. And we're not only going to watch them. We'll carry the play into the attack."

Maroons will have another workout today and leave in the afternoon, the full roster making the trip to Toronto.

BIRMINGHAM, Eng. April 3.—Hope that R. E. Wyatt, captain of the West Indies cricket team, which toured the West Indies during the winter, will be able to play when the country cricket season opens was expressed last night.

The Warwickshire star suffered a severe injury to his jaw in the last match in Jamaica last month.

An authoritative report of the X-ray examination made Monday said that although the fractures were revealed the condition is improving and Wyatt can now use his jaw well enough to allow him to discard bandages. It is not likely an operation will be necessary.

JOYCE WETHERED TO TOUR STATES

LONDON, April 3.—The Express says Joyce Wethered, British golf star, will receive a minimum of \$4000 for her U.S. professional exhibition tour which will last for 24 months.

BASEBALL

ST. PETERSBURG, Fla. April 3.—Although Pat Malone, pitcher, one-out, hit his first five innings in his American League debut, New York Yankees were forced to come from behind with a three-run rally in the ninth to defeat Boston Braves 7-4 in an exhibition game at McDevitt Stadium Tuesday.

The Yankees won the game by a 3-2 edge in the game.

Break Precedent As Woman Trainer Granted License

NEW YORK, April 3.—The Jockey Club broke down the walls of precedent Tuesday when it granted a license to Mary Hirsch, 22-year-old daughter of Max Hirsch, famous United States horseman, a license to train thoroughbreds in New York State.

It was the first time in the history of the organization, founded in 1868, that the stewards had approved of a woman's application to be officially recognized as a trainer.

Heretofore such a permission was considered an infringement of a tradition as old as racing itself.

The final rubber played would end in a blaze of glory for the Culbertson. Ely Culbertson had 14 aces and made 710 points on the 10th hand, the final hand of the night. Mrs. Culbertson had 14 aces, made five, had 100 points and played up 500 points in his first rubber.

The Culbertson duo has won 35 rubbers, the Sims, 24.

Winnipeg Sextet Captures Opener Of Junior Series

'Peg Youngsters Jump Out in Front in Fight For Western Canadian Title—Win Game By Margin of 5-4

WINNIPEG, April 3.—You can take it from the respective coaches of Winnipeg Monarchs or Saskatoon Wesleyans, and they should know—the team to win the Memorial Cup this year will pack the speed of lightning and the stout heart of a thoroughbred.

Finalists for western junior hockey honors, Wesleyans and Monarchs possess these attributes to a degree. A slight margin in staying power, however, gave the Manitoba champions a 5-4 victory here last night in the first game of the two-out-of-three title series. The second will be played Thursday night.

STAYING POWER

AMAZING BIG CROWD

A wide-eyed crowd of 3,500, amazed at the staying power of the little fellows, gave the two teams a thundering ovation as they skated off the ice. Speed was the forte of the Saskatoon team, nonetheless adept at close-checking as they raced at high speed through 60 minutes of play with a let-up.

The blistering rushes of Stanley Sampson, at right wing, Mel Neilson, at centre, and Chunky Dick Wymann, who held their own in the 3-1 lead in the first period, and the stout checking of Bill Clubb and Pete Rittiger held their own in the second period, and Monarchs were up to the score and punched home the winning marker two seconds before the whistle brought welcome relief to 20 tired athletes.

HOLDS HERO ROLE

Johnny Proskak emerged in the role of hero. It was the mile monarch front-line centre who fired the goal that tied the count in the final period, after Kerr had added a fourth for Wesleyans. Joe Spill, Monarchs' right winger, scored the winning goal.

OARSMEN CREWS IN LIGHT DRILLS

PUTNEY-ON-THAMES, April 3.—A strong northerly wind against the tide created a miniature sea on the boat race course Tuesday, but the Oxford and Cambridge crews, suffering off training for the classic Varsity race Saturday, got in light workouts, nonetheless.

Unless the wind should change before Saturday the race may have to be postponed as the boats, under conditions that prevailed earlier yesterday would have been waterlogged before getting very far.

Last Tuesday afternoon the dark blue paddlers of Hammersmith and back, the only racing against losing three bursts of six strokes apiece and one or two strokes.

Cambridge paddled at 20 to the minute and on their return had several bursts of rowing.

Now Testing Her Ability For Tennis Comeback

San Francisco, April 3.—Helen Wills Moody, now testing her physical condition for a possible comeback, hopes to scale the International tennis ladder, now more by whether or not she is destined to rule the courts again she never will turn professional.

The one-time queen of the net sport also thinks, "It would be fun to act in a motion picture based on tennis."

Reactions of the young matron, who swept through the tennis lists with her start as a girl in 1913 and finished with a disconcerting back injury and default to Helen Jacobs a decade later, were set down in a series of questions answered Tuesday for the Associated Press.

LIKES BIG EVENTS

Mrs. Moody's fondest hopes are for international competition. "I would like to take part in the big events in tennis, provided my game gets a good start," she said.

"I am a little hard to tell just now when I will be able to play in a tournament. It is better to play in some small tournaments first," she wrote.

"My emphasis 'now' was her reply to the query would she 'consider turning professional'."

In round about fashion she disclosed she would enjoy acting in a movie. "Almost everyone imagines it would be fun to be in a movie, I should think," she replied.

On the subject of liberalizing the amateur tennis rules to permit players to act in motion pictures with a tennis plot without jeopardizing their standing, Mrs. Moody expressed the belief "eventually some provision will be made by the various tennis associations permitting players to play tennis in the movies."
